Motivated IT undergraduate with a strong interest in software engineering. I enjoy building web applications and learning new technologies like React, Spring Boot, and Java. I am a fast learner who likes solving problems and working with teams to create useful software. I am looking for a challenging opportunity to apply my coding skills and grow as a professional developer.

SKILLS

Frontend Development: React, Angular, HTML, CSS, Bootstrap, JavaScript

Backend Development: Java, Spring Boot, Node.js

Databases: MySQL, PostgreSQL

Tools & VC: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Core Skills: OOP Concepts, Troubleshooting, Basic IT Security

PROJECTS

Quizspark - AI-Powered Quiz Platform | React, Node.js, Supabase, Gemini AI, Clerk

- Developed a full-stack learning platform featuring a virtual economy and AI-driven automated bank slip verification via Google Gemini Vision.
- Implemented secure role-based access and automated real-time email notifications.

Bright Class - Learning Management System | Angular 17, Spring Boot, PostgreSQL, JWT

- Building an enterprise-grade Learning Management System with secure JWT authentication and Role-Based Access Control.
- Features dynamic dashboards for course enrollment, student management, and payment verification.

Shutter Crew - Photography Platform | React, Node.js, PostgreSQL

- Built a full-stack service platform featuring secure user authentication, booking management, and automated email notifications.

EDUCATION

Bachelor of Information Technology

University of Colombo School of Computing (UCSC) | Current GPA: 3.3

2023 - PRESENT

ADDITIONAL INFORMATION

- Soft Skills: Teamwork, Problem-solving, Empathy, Effective Communication, Leadership
- Languages: Sinhala (Native), English (Professional Working Proficiency), Tamil (Intermediate)
- Certifications: Cyber Security & Networking, Python for Beginners (University of Moratuwa)
